Occupations relating to eligible apprenticeships are added to the programs of study that the Coordinating Board for Higher Education shall annually review.

This act repeals requirements that the eligible student complete counseling and execute a promissory note in order to be eligible for a grant. (Section 173.2553)

Current law allows a Fast Track grant to be converted into a loan if a student fails to meet certain conditions. This act repeals such ability. (Section 173.2554)

This act shall sunset on August 28, 2029, unless reauthorized by the General Assembly.

This provision is identical to a provision in HCS/HB 2203 (2022).

TARGETED INDUSTRIAL MANUFACTURING ENHANCEMENT ZONES

This act establishes the "Targeted Industrial Manufacturing Enhancement Zones Act".

This act allows any two or more contiguous or overlapping political subdivisions, as defined in the act, to create targeted industrial manufacturing enhancement (TIME) zones for the purpose of completing infrastructure projects to promote economic development. Prior to the creation of a TIME zone, each political subdivision shall propose an ordinance or resolution that sets forth the names of the political subdivisions which will form the zone, the general nature of the proposed improvements, the estimated cost of such improvements, the boundaries of the proposed TIME zone, and the estimated number of new jobs to be created in the TIME zone. The political subdivisions shall hold a public hearing prior to approving the ordinance or resolution creating the TIME zone.

This act allows the zone board governing the TIME zone to retain twenty-five percent of withholding taxes on new jobs created within the TIME zone to fund improvements made in the TIME zone. Prior to retaining such withholding taxes, the zone board shall enter into an agreement with the Department of Economic Development. Such agreement shall specify the estimated number of new jobs to be created, the estimated average wage of new jobs to be created, the estimated net fiscal impact of the new jobs, the estimated costs of improvements, and the estimated amount of withholding tax to be retained over the period of the agreement. The Department shall not approve an agreement unless the zone board commits to the creation of a certain number of new jobs, as described in the act.

The term of such agreement shall not exceed ten years. A zone board may apply to the Department for approval to renew any agreement. In determining whether to approve the renewal of an agreement, the Department shall consider the number of new jobs created and the average wage and net fiscal impact of such new jobs, and the outstanding improvements to be made within the TIME zone, the funding necessary to complete such improvements, and any other factor the Department requires. The Department may approve the renewal of an agreement for a period not to exceed ten years. If a zone board has not met the new job creation requirements by the end of the agreement, the Department shall recapture the withholding taxes retained by the zone board.

The zone board shall submit an annual report to the Department and to the General Assembly, as described in the act.

No political subdivision shall establish a TIME zone with boundaries that overlap the boundaries of an advanced industrial manufacturing (AIM) zone.

SPONSOR: Hough

The total amount of withholding taxes retained by TIME zones under this act shall not exceed \$5 million per year.

No new TIME zone shall be created after August 28, 2025. (Section 620.2250)

DRINKING WATER IN SCHOOLS (Section 160.077)

This act establishes the "Get the Lead Out of School Drinking Water Act".

Beginning in the 2023-2024 school year and for each subsequent school year, each school shall provide drinking water with a lead concentration below five parts per billion (5 ppb).

On or before January 1, 2024, each school shall complete requirements outlined in the act including: conducting an inventory of all drinking water outlets and outlets used for dispensing water for cooking or cleaning utensils in each school building, develop a plan for testing each outlet and make such plan available to the public and providing general information on the health effects of lead contamination to employees and parents of children at each school.

Schools shall prioritize early childhood, kindergarten, and elementary school buildings in updating and filtering drinking water outlets for lead as stated in the act.

Before August 1, 2024, or the first day on which students will be present in the building, whichever is later, schools shall conduct testing for lead as stated in the act. Within 2 weeks after receiving test results, schools shall make all testing results and any remediation plans available on the school's website.

SPONSOR: O'Laughlin

HANDLER: Basye

The act outlines procedures to be undertaken if a sample draw shows a lead concentration of 5 ppb or greater. Affected schools with test results greater than 5 ppb shall contact parents and staff within 7 business days of receiving such result.

If, in the 10 years prior to the 2023-24 school year, a fixture tested above 5 ppb for lead, such fixture does not need repeat testing but instead shall be remediated.

Subject to appropriation, the Department of Natural Resources, with support from the Department of Elementary and Secondary Education and the Department of Health and Senior Services, is authorized to give schools additional funding for filtration, testing, and other remediation of drinking water systems.

A school district may seek reimbursement from several federal sources for costs associated with expenses districts may incur for compliance with the act.

The Department of Health and Senior Services, in conjunction with the Department of Elementary and Secondary Education, shall publish a report biennially based on the findings of the water testing conducted under the act.

No school building constructed after January 4, 2014, shall be required to install, maintain, or replace filters.

Finally, any school that tests and does not find a drinking water source with a lead concentration above 5 ppb shall be required to test such sources only every 5 years.

This provision is similar to SCS/SB 1075 (2022).

CORPORAL PUNISHMENT (Section 160.261)

This act requires school districts notify parents and receive written permission before using corporal punishment. The act repeals language related to the jurisdiction of the Children's Division within the Department of Social Services and its ability to investigate reports of alleged child abuse by personnel of a school district, a teacher, or other school employee. It also repeals language related to how a school and school district are to handle reports of alleged child abuse.

This provision is identical to a provision in HCS/HB 1753 (2022).

SHOW ME SUCCESS DIPLOMA PROGRAM (Section 160.560)

This act establishes the Show Me Success Diploma Program as an alternative pathway to graduation for high school students. A student may earn the Show Me Success Diploma beginning at the end of the 10th grade. By July 1, 2023, the Department of Elementary and Secondary Education shall develop detailed requirements for students to become eligible for the Show Me Success Diploma.

Students who earn a Show Me Success Diploma may elect to remain in high school. Alternatively, a student having earned the diploma may instead enroll in a qualifying postsecondary educational institution. For each student enrolled in such an institution, an amount equal to 90% of the pupil's proportionate share of the state, local, and federal aid that the district or charter school receives for such student shall be deposited into a higher education savings account that lists the student as the beneficiary.

These provisions are identical to provisions in HB 1956 (2022) and substantially similar to provisions

ADULT HIGH SCHOOLS (Sections 160.2700 & 160.2705)

For a school to meet the definition of "adult high school" under current law, the school shall offer on-site childcare for children of enrolled students, in addition to other requirements provided in current law. This act repeals the on-site requirement for such childcare.

Additionally, current law prohibits adult high schools from offering a majority of instruction online or remotely. This act provides that synchronous instruction connecting students to a live class at a Missouri adult high school shall be treated as in-person instruction.

Further, current law prohibits any person from establishing, operating, maintaining, or advertising a childcare facility without a license, with an exception for any private, elementary, or secondary school system providing childcare to children under school age. This act provides that adult high schools shall be deemed a "secondary school system" for purposes of such exception.

These provisions are identical to provisions in the perfected HB 2325 (2022) and HB 2492 (2022) and are substantially similar to SB 1052 (2022), HB 2618 (2022), HB 151 (2021), HB 624 (2021), HCS/HB 733 (2021), and HCS/SB 323 (2021).

The MABEP shall hold regular meetings that allow members to share needs and concerns and plan strategies to enhance teacher preparation.

Under the act, the State Board of Education shall, in consultation with MABEP, align literacy and reading instruction coursework for teacher education programs. All reading and special education certificates shall include training as outlined in the act.

SCHOOL INNOVATION WAIVERS (Section 161.214)

Under this act, a school intervention team, which shall mean a group of persons representing certain schools as set forth in the act, may submit a state innovation waiver plan to the State Board of Education for certain purposes, including improving student readiness for employment, higher education, vocational training, technical training, or any other form of career and job training; increasing the compensation of teachers; or improving the recruitment, retention, training, preparation, or professional development of teachers.

The State Board may grant school innovation waivers to exempt schools from requirements imposed by current law, or from any regulations promulgated by the State Board or the Department of Elementary and Secondary Education. If a school innovation waiver is granted to a school district or group of school districts, the waiver shall be applicable to every elementary and secondary school within the school district or group of school districts unless the plan specifically provides otherwise.

Any plan for a school innovation waiver shall contain certain information as described in the act, including the specific provision of law for which a waiver is being requested and an explanation for why such provision of law inhibits the goal stated in the plan. The plan shall also demonstrate that the intent of the law can be addressed in a more effective, efficient, or economical manner and that the waiver or

modification is necessary to implement the plan.

In evaluating a plan submitted by a school innovation team, the State Board shall consider whether the plan meets certain criteria set forth in the act. The State Board may propose modifications to the plan in cooperation with the school innovation team.

Any waiver granted under this act shall be effective for no longer than three school years, but school innovation waivers may be renewed. No more than one school innovation waiver shall be in effect with respect to any one elementary or secondary school at one time.

The State Board shall not authorize the waiver of any statutory requirements relating to teacher certification, teacher tenure, or any requirement imposed by federal law.

These provisions are identical to the perfected HB 2152 (2022) and similar to SB 662 (2022).

READING INTERVENTION (Section 161.241)

The State Board of Education, in collaboration with the Coordinating Board for Higher Education and the Commissioner's Literacy Advisory Council established by the act, shall develop a plan to establish a comprehensive system of services for reading instruction. By application, the Department of Elementary and Secondary Education shall award grants from the fund to eligible school districts for the purpose of providing competency-based education programs. The Department shall facilitate the creation, sharing, and development of course assessments, curriculum, training and guidance for teachers, and best practices for the school districts that offer competency-based education courses.

These provisions are identical to provisions in HB 1956 (2022) and similar to provisions in SB 660 (2022).

COMPETENCY-BASED EDUCATION TASK FORCE (Section 161.385)

This act establishes the Competency-Based Education Task Force to study and develop competency-based education programs in public schools. The Task Force shall conduct interviews and at least three public hearings to identify promising competency-based education programs and obstacles to implementing such programs. By December 1st of each year, the Task Force shall present its findings and recommendations to the Speaker of the House of Representatives, the President Pro Tempore of the Senate, the Joint Committee on Education, and the State Board of Education.

These provisions are identical to provisions in HB 1956 (2022) and similar to provisions in SB 660 (2022).

Each participating school district shall provide a plan of professional development for teachers.

The pilot program shall start in participating school districts in the 2023-2024 school year and shall be expanded to include all school districts by the 2025-2026 school year.

The Department shall provide for an evaluation regarding the success and impact of the pilot program upon completion of the first year of the pilot program and shall report the results of such evaluation to the General Assembly.

This provision is substantially similar to SCS/HCS/HB 2000 (2022) and similar to SCS/SB 983 (2022).

SCHOOL BOARD COMMUNITY ENGAGEMENT POLICY (Section 162.058)

Before July 1, 2023, school districts and charter schools shall adopt a community engagement policy based on community input that provides residents a method of communicating with the governing board of the school district or charter school. The policy creates a process for items related to educational matters to be added to the board agenda. The policy components are set forth in the act.

This provision is similar to a provision in HCS/HB 1753 (2022) and in the perfected HCS/HB 1750 (2022).

PUBLIC SCHOOLS AND SCHOOL DISTRICTS (Section 162.084)

Under the act, any individual public elementary school, secondary school, charter school, or school district that is in the bottom 5% of scores on the annual performance report shall mail a letter to the parents and guardians of each student in such school or district informing the parents and guardians of the score and any options available to such students as a result of the school's or district's current status. Special school districts and any state operated schools in which all of the students enrolled are students with disabilities are exempted from this provision.

This provision is similar to a provision in HCS/HB 2652 (2022).

SCHOOL BOARD DISTRICTS (Sections 162.261-162.563)

This act allows for any seven-director school district or an urban district to be divided into subdistricts, or a combination of subdistricts and at-large districts, and provides for the process for the election of subdistrict board members.

The act allows for the division process to be submitted to a vote of the district either by a majority vote of the school board or by an initiative petition signed by 10% of the number of votes cast in the most recent school board election. If the ballot measure to divide the district is passed, the act provides direction on conducting public hearings and the final development of plans to carryout the division of the

SPONSOR: O'Laughlin

district. The required details of the plan proposal are outlined in the act. Subdistricts shall be of contiguous and compact territory and as nearly equal in population as practicable.

The act contains appeals language for any resident of the district that objects to the division of the district by the election authority, and prevents any district that votes to divide from making changes for 5 years after the division.

The act prohibits school districts from requiring signatures on a petition as a method of filing for a school board candidate.

These provisions are identical to provisions in HCS/HB 1753 (2022) and to HB 1804 (2022).

GIFTED CHILDREN (Section 162.720)

Under current law, when a sufficient number of children are determined to be gifted and their development requires programs or services beyond the level of those ordinarily provided in regular public school programs, school districts may establish special programs for such gifted children. Approval of such programs shall be made by the Department of Elementary and Secondary Education based upon project applications submitted by July 15th of each year.

Under this act, if 3% or more of students enrolled in a school district are identified as gifted, the district is required to establish a state-approved gifted program for gifted children. If a school district has an average daily attendance of 350 students or fewer, the district's gifted program shall not be required to provide services by a teacher certified to teach gifted education. Any teacher who provides gifted services through the program, and is not certified, shall annually participate in at least 6 hours of professional development focused on gifted development. These provisions shall apply starting in the 2024-2025 school year.

Approval of such programs shall be made by the Department based upon project applications submitted at a time and in a form determined by the Department.

This provision is identical to the perfected HB 2366 (2022) and substantially similar to SB 806 (2022).

SPECIAL EDUCATION REIMBURSEMENT (Section 162.974)

Currently, the Department of Elementary and Secondary Education will reimburse school districts for the costs of special education for high-needs children with an Individualized Education Program (IEP) exceeding three times the current expenditure per average daily attendance as calculated on the District Annual Secretary of the Board Report for the year in which the expenditures are claimed. This act states that any money reimbursed to a school district with 500 or fewer students is excluded from such calculation.

This act specifies that a school district shall submit the cost of serving any high-needs student with an IEP to The Department.

This provision is identical to HB 1469 (2022) and to a provision in HCS/HB 1753 (2022).

formula for high school students who are taking competency-based courses offered by their school district or charter school.

Attendance of a student enrolled in a competency-based course shall equal the product of the district or charter school's prior year average attendance percentage multiplied by the total number of attendance hours normally allocable to a non-competency-based course of equal credit value.

These provisions are identical to provisions in HB 1956 (2022) and substantially similar to provisions in SB 660 (2022).

DOLLAR VALUE MODIFIER (Section 163.016)

Under this act, the Gasconade County R-II, Maries County R-II, and the West St. Francis County R-IV school districts which all cross county lines shall each use the dollar value modifier of the county with the highest dollar value modifier.

These provisions are identical to HCS/HB 2445 (2022) and to provisions in the perfected HB 2493 (2022).

SCHOOL DISTRICT RESIDENCY TUITION WAIVER (Section 167.151)

For all school years beginning on or after July 1, 2023, this act allows any person or a beneficiary of a trust that owns residential or agricultural real property in any school district, and pays a school tax of at least \$2,000 in that district and owned property for at least four years, may send up to four of such owner's or beneficiary's children to a school within that district, excluding a charter school, without a tuition payment, upon notification to the district at least 30 days prior to enrollment, and the district shall count that child for the district's average daily attendance.

This provision is substantially similar to a provision in the perfected HCS/HB 1814 (2022) and to a provision in SB 1010 (2022).

BRAILLE INSTRUCTION (Section 167.225)

This act establishes the "Blind Students' Rights to Independence, Training, and Education Act" or the "BRITE Act". The act provides definitions for "accessible assistive technology device", "adequate instruction", and "nonvisual access and skills" among other definitions.

The act requires blind and visually impaired students to have an Individualized Education Plan or Individualized Family Support Plan that shall specify results obtained from evaluations on reading and writing skills, and should include the need for instruction in Braille or the use of Braille. All instruction in Braille reading and writing shall be sufficient to allow a student to effectively and efficiently communicate at an appropriate age level.

The act includes additional guidance for the instruction of Braille and the use of nonvisual accessible assistive technology. The act provides direction to school districts regarding accessible assistive technology and requires a school district to provide duplicative accessible assistive technology to be used in a blind student's home without requiring payment or family assumption of liability for loss or damage.

The act requires districts to perform an orientation and mobility evaluation to be conducted by certified individuals and provides guidance on the instruction for orientation and mobility, and districts may not limit a student's instruction in the home, school, and community and provide transportation in the

preferred mode of the instructor.

The act requires educators hired to teach Braille, accessible assistive technology, and orientation and mobility, to hold a valid certificate as outlined in the act. The act requires school districts to comply with the Individuals with Disabilities Education Act even during declared emergencies, to bear the cost of any required eye report, and to develop nonvisual accessibility policies to reduce or eliminate common barriers for blind individuals.

These provisions are identical to HCS/HB 2150 (2022).

READING INTERVENTION (Section 167.268, 167.640, 167.645, & 170.014)

The act changes the term "reading intervention plans" to "reading success plans" throughout the act and applies provisions regarding such plans to charter schools. The development of guidelines for formulating policies for such plans is changed from the State Board of Education to the Department of Elementary and Secondary Education.

Each school district and charter school shall have on file a policy for reading success plans. The reading success plans shall provide all parents and guardians of students with a plan that includes suggestions for regular parent-guided home reading.

Each school district and charter school shall provide intensive reading instruction to students as set forth in the act.

The act repeals provisions relating to reading assessments and now states that school districts and charter schools shall assess all students enrolled in kindergarten through 3rd grade at the beginning and end of each school year for their level of reading or reading readiness. Additionally, all school districts and charter schools shall assess any newly enrolled student in grades one through five for their level of reading or reading readiness.

At the beginning of the school year, each school district and charter school shall provide a reading success plan to any student who exhibits a substantial deficiency in reading or has been identified as being at risk of dyslexia.

Each school district or charter school shall ensure the parent or guardian of any student in kindergarten through 3rd grade who exhibits a substantial deficiency in reading and shall provide them information listed in the act.

If a student has a substantial reading deficiency at the end of 3rd grade, promotion or retention of the student shall be discussed by the student's parent or guardian and appropriate school staff. School districts and charter school shall provide students identified as having a substantial reading deficiency with certain services as set forth in the act.

Each school district and charter school shall ensure that intensive reading instruction is provided through a reading development initiative to each kindergarten through 5th grade student who is assessed as exhibiting a substantial reading deficiency. Such instruction shall comply with criteria listed in the act.

The provisions relating to reading assessments have an effective date of January 1, 2023.

SPONSOR: O'Laughlin

Additionally, each school district and charter school shall provide professional development services to enhance the skills of elementary teachers in responding to children's unique reading issues and needs to increase the use of evidence-based strategies.

INDIVIDUALIZED HEALTH CARE PLANS AT SCHOOLS (Section 167.625)

This act establishes "Will's Law," requiring individualized health care plans to be developed by school nurses in public schools and charter schools. Such plans shall be developed in consultation with a student's parent or guardian and appropriate medical professionals that address procedural guidelines and specific directions for particular emergency situations relating to the student's epilepsy or seizure disorder. Plans are to be updated at the beginning of each school year and as necessary. Notice must be given to any school employee that may interact with the student, including symptoms of the epilepsy or seizure disorder and any medical and treatment issues that may affect the educational process.

All school employees shall be trained every two years in the care of students with epilepsy and seizure disorders. Training shall include an online or in-person course of instruction approved by the Department of Health and Senior Services. School personnel shall obtain a release from a student's parent to authorize the sharing of medical information with other school employees as necessary.

This act protects school employees from being held liable for any good faith act or omission while performing their duties.

This provision contains an emergency clause.

This provision is identical to a provision in HCS/SB 710 (2022).

RECOVERY PROGRAMS FOR HIGH SCHOOL STUDENTS (Section 167.850)

Under this act, the Commissioner of Education may approve and authorize up to four pilot recovery high schools to be established and operated by individual public school districts or groups of such districts. Recovery high schools shall serve as an alternative public high school setting and recovery program for students in recovery from substance use disorder or substance dependency, or such a condition along with co-occurring disorders as described in the act, who would academically and clinically benefit from placement in the recovery high school and who are committed to working on their recovery.

Districts seeking to operate a recovery high school shall submit proposals to the Commissioner by December 1st in the year prior to the first school year in which the school would begin operation. The proposal shall detail how the school will comply with the existing requirements for public high schools as well as how the school will be accredited by a recovery school accreditation organization as described in the act.

The proposal must include a financial plan outlining anticipated public and private funding that will allow the recovery high school to operate and meet the school's educational and recovery criteria. The district or districts may partner with one or more local nonprofit organizations or other local educational agencies regarding the establishment and operation of a recovery high school. The proposal may contain requests for waivers of existing regulations, which shall be deemed granted if the proposal is approved by the State Board of Education with the recommendation of the Commissioner.

The Commissioner of Education may specify an authorization period for the recovery high school which shall be no less than four years. By June 30th annually, the school district or group of school

SPONSOR: O'Laughlin

HANDLER: Basye

districts, in consultation with the recovery high school, shall submit to the Commissioner an analysis of school outcomes, as described in the act. The Commissioner shall review the analysis, renew recovery high schools meeting the requirements of the act and the requirements of the school's proposal, and may include new terms and conditions to address areas needing correction or improvement. The Commissioner may revoke or suspend the authorization of a recovery high school not meeting such requirements.

Pupil attendance, dropout rate, student performance or statewide assessments, or other data considered in the Missouri school improvement program and school accreditation shall not be attributed to general accreditation of either a sending district or the district or districts operating the recovery high school and may only be used by the Commissioner in the renewal process for the recovery high school.

School districts may enroll their students in a recovery high school by entering into an agreement with the district or districts operating the school. Parents of eligible students and eligible students over the age of 18 may seek to enroll in the school. A recovery high school shall not limit or deny admission to an eligible student based on race, ethnicity, national origin, disability, income level, proficiency in the English language, or athletic ability.

Recovery high schools shall adopt a policy establishing a tuition rate by February 1st of the preceding school year; that the sending district shall pay the tuition rate or an amount of per-student state and local funding as described in the act, whichever is lower; and that the sending district will remain responsible for special education and disability expenses in excess of the tuition paid.

The Commissioner may enter into an agreement with the appropriate official or agency of another state to develop a reciprocity agreement for otherwise eligible, non-resident students seeking to attend a recovery high school in Missouri. A recovery high school may enroll otherwise eligible students residing in a state other than Missouri, pursuant to such reciprocity agreement. Such reciprocity agreement shall require the out-of-state student's district of residence to pay to the recovery high school an annual amount equal to 105% of the recovery high school's tuition rate. Eligible students from states with which the Commissioner does not have a reciprocity agreement may attend a recovery high school provided such student pays 105% of the recovery high school's tuition rate. No student enrolled pursuant to a reciprocity agreement shall be considered a resident pupil for purposes of calculating state aid.

This act provides that the survey shall be conducted in the year after the student's graduation year and the following 4 consecutive years. The survey shall include certain data collection elements as provided in the act, including employment status, wage, access to employer-sponsored health care, and postsecondary enrollment status.

Currently, the Department of Higher Education and Workforce Development reimburses the cost of tuition and fees for any dual credit or dual enrollment course. This act repeals this provision.

Current law also limits the amount of the scholarship per student to \$500 annually for all dual credit courses taken by such student. This act provides that each eligible student shall be offered a dual credit or dual enrollment scholarship equal to the tuition and fees paid by the student to enroll in the dual credit or dual enrollment course. Currently, postsecondary educational institutions that enter into commercial agreements that require the use of a student athlete's name, image, likeness, or athletic reputation must conduct a financial development program for the athletes. This act requires such program to include information concerning financial aid, debt management, and a recommended budget for student athletes based on the current year's cost of attendance. The Department shall announce approved program providers prior to October 16th each year, and approved program providers shall begin enrolling students before November 15th each year. Approved program providers shall maintain approval without reapplying annually unless the provider has been removed pursuant to this act.

All approved program providers shall comply with requirements set by the Department to ensure an accurate accounting of a student's accumulated credits, an accurate accounting of credits necessary to complete a high school diploma, and any coursework to be aligned with the academic performance standards of this state.

Subject to appropriations, the Department shall set and pay approved program providers for meeting certain milestones. However, no approved program provider shall receive funding for a student if such provider already receives federal or state funding or private tuition for such student. Additionally, no approved program provider shall charge student fees of any kind, including textbook fees, tuition fees, lab fees, or participation fees, unless the student chooses to obtain additional education offered by the provider that is not included in the program.

In order to receive payments, approved program providers shall be required to submit monthly invoices to the Department before the eleventh calendar day of each month for the milestones met by students in the previous month. The Department shall pay approved program providers in the order in which invoices are submitted until all available funds are exhausted.

The Department shall also provide a written update to approved program providers by the last day of each month, which shall include the aggregate total dollars that have been paid to the providers, and the estimated number of enrollments still available for the program year.

Prior to July 16th of each year, each approved program provider shall report certain information set forth in the act to the Department for each individual participating student, on a student-by-student basis, including the total number of students who have been funded through the program, the total number of credits earned, the total number of employability skills certifications issued, the total number of industry-recognized credentials earned, stackable credentials, and technical skill assessments, the total number of graduates, the average costs per graduate, and the graduation rate.

Additionally, prior to September 16th of each year, each approved program provider shall conduct and submit to the Department the aggregate results of a survey of each individual participating student, on a student-by-student basis, who graduated from the program of the provider. This act provides that the survey shall be conducted in the year after the student's graduation year and the following 4 consecutive years. The survey shall include certain data collection elements as provided in the act, including employment status, wage, access to employer-sponsored health care, and postsecondary enrollment status.

The Department shall review data from each approved program provider, at the end of the second fiscal year of the program, to ensure that each provider is achieving minimum program performance standards. Any provider failing to meet such standards shall be placed on probationary status for the remainder of the fiscal year. If a provider fails to meet the standards for two consecutive years, such provider shall be removed from the approved program provider list.

Additionally, this act provides that no approved program provider shall discriminate against a student on the basis of race, color, religion, national origin, ancestry, sex, sexuality, gender, or age.

If an approved program provider determines that a student would be better served by participating in a different program, the provider may refer the student to the state's adult basic education services.

Further, the act creates the "Workforce Diploma Program Fund" in the state treasury. The fund shall consist of grants, gifts, donations, bequests, and moneys appropriated for purposes of the program.

Finally, the program shall sunset on August 28, 2028, unless reauthorized by the General Assembly.

RATE ADJUSTMENTS OUTSIDE OF GENERAL RATE PROCEEDINGS (Section 386.266)

Under this act, an electrical corporation may make one application to the Commission to either approve rate schedules authorizing periodic rate adjustments outside of general rate proceedings or to defer and recover certain depreciation expense and return for qualifying electric plant recorded to plant-in-service on the utility's books if the corporation has provided notice to the Commission to elect the opposite option. Under this act, electrical corporations, gas corporations, sewer corporations, and water corporations shall defer to a regulatory asset or liability account any difference in state or local property tax expenses actually incurred, and those on which the revenue requirement used to set rates in the corporation's most recently completed general rate proceeding was based. The regulatory asset or liability account balances shall be included in the revenue requirement used to set rates through an amortization over a reasonable period of time in such corporation's subsequent general rate proceedings. Such expenditures deferred under this provision are subject to Commission prudence review in the next general rate proceeding after deferral.

The Commission shall make the determination of whether to grant such permission to continue after a hearing.

Failure to obtain such Commission permission to continue shall not affect deferrals made through the date for which permission has been granted, or the regulatory and ratemaking treatment of the regulatory assets arising from such deferrals.

The Commission may take into account any change in business risk to the electrical corporation resulting from implementation of the deferrals in setting the corporation's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the corporation.

No project shall be based solely on costs and benefits that cannot be quantitatively evaluated, and any quantification for such a project shall be accompanied by additional justification in support of the project.

In its report to the PSC on capital investments, an electrical corporation shall include information on the quantitatively evaluated costs and benefits generated by each of those investments that exceeded \$20 million and any efficiencies achieved as a result of those investments.

DISCOUNTED ELECTRIC RATES (Section 393.1640)

This act modifies the criteria for electric customers to be considered for a discounted electric rate. The first discount of 35% is for customers with new load that is projected to be between 300 kilowatts but not more than 10 megawatts with a load factor of 45% and shall apply for 5 years. The second discount applies for new load that is projected to be more than 10 megawatts and have a load factor of 55% and the discount percentage shall be determined such that the applicant's total bill is expected to provide revenues equal to 120% of the corporation's variable cost, as described in the act, to serve the corporation's accounts that are to receive the discount. Such discount shall apply for 10 years.

In order to obtain one of the discounts, the customer's load shall be incremental, the customer must receive an economic development incentive from the local, regional, state, or federal government, and the customer must meet criteria set forth in the electrical corporation's economic development rider tariff

sheet.

The electrical corporation shall verify the customer's incremental demand annually to determine continued qualification for the applicable discount.

In each general rate proceeding concluded after August 28, 2022, the difference in revenues generated by applying the discounted rates and the revenue that would have been generated without such discounts shall not be imputed into the electrical corporation's revenue requirement but instead such revenue requirement shall be set as described in the act.

HCS/SCS/SB 886 - This act modifies provisions relating to trusts, including cemetery trust funds, the application of the rule against perpetuities to beneficiaries of certain trusts, interpretation of familial relationships described in trusts, distributions of income or principal from one trust to another trust, discretionary trusts, and settlor's beneficial interests in certain trusts.

CEMETERY TRUST FUNDS (SECTION 214.160)

This act modifies provisions of current law relating to cemetery trust funds by providing that when net income from the trust funds is not sufficient to support, maintain, and beautify a cemetery, the county commission may use as much of the trust fund principal as the commission deems necessary for the purpose of basic maintenance to control the growth of weeds and grass.

This provision is identical to HB 2143 (2022) and is substantially similar to provisions in HB 158 (2021) and HCS/HB 443 (2021).

APPLICATION OF THE RULE AGAINST PERPETUITIES (SECTION 456.026)

SPONSOR: Luetkemeyer

HANDLER: Evans

If there is only one beneficiary who is entitled or eligible to receive distributions of income or principal from the trust and such beneficiary holds a general power of appointment over the trust with no other person having a power to appoint any part of the trust to anyone other than the beneficiary, then the beneficiary has a vested interest in the trust for purposes of determining whether a trust is subject to the rule against perpetuities.

This provision is substantially similar to a provision in HB 2001 (2022).

FAMILIAL RELATIONSHIPS (SECTION 456.1-114)

For the purposes of interpreting a term of familial relationship in a trust, a child conceived or born during a marriage is presumed to be a child of the married persons unless a judicial proceeding is commenced before the death of the presumed parent and it is determined that the presumed parent is not the parent of the child.

Additionally, this act provides that a child who is not conceived or born in a marriage is presumed to not be a child of a person who did not give birth to such child unless a judicial proceeding determines such parentage or the person openly recognizes the child as his or her child and such person has not refused to voluntarily support the child. A trustee shall not be liable to any person for exercising discretion in regards to the sufficiency of recognition and support of a child unless the trustee acted in bad faith or with a reckless indifference to the purposes of the trust or the interests of the beneficiaries. Furthermore, a child adopted prior to 18 years of age is a child of the adopting parent and not of the natural parents, except that adoption by a spouse of a natural parent shall have no effect on the relationship between the child and the natural parent.

Finally, the rights afforded to the child shall not be retroactive, but shall apply from the time the relationship is established. The terms of a trust shall prevail over this provision of the act.

This provision is substantially similar to a provision in HB 2001 (2022), HCS/SCS/SB 119 (2021), SB 338 (2021), SCS/HB 585 (2021), HB 758 (2021), the perfected HB 1008 (2021), SCS/HCS/HB 1204 (2021), and SCS/HCS/HB 1242 (2021).

TRUST DECANTING (SECTION 456.4-419)

Under this act, a trustee, other than a settlor, who has discretionary power to make a distribution, may exercise such power by distributing all or part of the income or principal to a trustee of a second trust. The power may be exercised by distributing property from the first trust to one or more second trusts or by modifying the first trust instrument to become one or more second trusts.

This act provides requirements regarding permissible distributees of second trusts, including that at least one permissible distributee of the first trust shall be a permissible distributee of the second trust immediately after the distribution and that only a beneficiary of the first trust may be a beneficiary of the second trust. In addition, this act modifies the use of powers of appointment in the second trust. The second trust instrument may retain, modify, or omit a power of appointment granted by the first trust and the second trust instrument may create a general or nongeneral power of appointment if the powerholder is a beneficiary of the second trust. Furthermore, this act provides that a special-needs fiduciary may exercise the authority to make a distribution to a second trust if the second trust is a special-needs trust that has a beneficiary with a disability and if the fiduciary determines that the exercise of authority will further the purposes of the trust.

SPONSOR: Luetkemeyer

HANDLER: Evans

The act repeals the current provisions regarding a second trust's beneficiaries, the limitations on a trustee's authority to make distributions from the first trust in certain circumstances, trust contributions treated as gifts, and the exercise of the discretionary power to reduce the income interest of any income beneficiary in certain trusts. The act provides that if the exercise of the distribution authority is limited by an ascertainable standard, under which the trustee exercising such authority is a permissible distributee of the first trust, then the discretionary power shall be subject to at least the same standard as the first trust and the trust instrument for the second trust shall not modify powers of appointment nor grant a power of appointment to a trustee who did not exist in the first trust.

A second trust shall not include or omit terms that would prevent the first trust property from qualifying as a marital deduction, as a charitable deduction, for exclusion from the gift tax, as a qualified subchapter-S trust, or for a zero inclusion ratio for purposes of the generation skipping transfer tax under the Internal Revenue Code. Additionally, if the first trust property includes shares of an S-corporation's stock and the first trust is a permitted shareholder, then the trustee of the first trust may exercise the authority with respect to the S-corporation stock if the second trust is a permitted shareholder.

Currently, a notification shall be made at least sixty days prior to making a discretionary distribution to the permissible distributees of the second trust or if none then to the qualified beneficiaries of the second trust. This act requires that the notification be made to the permissible distributees of the first trust and to the permissible distributees of the second trust.

The second trust may have a duration that is the same as the first trust. However, the property of the second trust that is attributable to the first trust is subject to the rules governing maximum perpetuity, accumulation, or suspension of the power of alienation that apply to the property of the first trust. This provision shall not preclude the creation of a general power of appointment in the second trust instrument.

In the event that part of the second trust instrument does not comply with this act, the exercise of the discretionary power is effective and the provisions of the second trust instrument that are not permitted in or are required to be in the trust instrument are deemed void or included to the extent necessary to comply.

This provision is identical to a provision in HCS/SCS/SB 119 (2021), in SB 338 (2021), in SCS/HB 585 (2021), in HB 758 (2021), in SCS/HCS/HB 1204 (2021), and in SCS/HCS/HB 1242 (2021), is substantially similar to a provision in HB 2001 (2022) and in the perfected HB 1008 (2021), and is similar to HB 929 (2021), HB 2533 (2020), SB 418 (2019), and HB 1041 (2019).

DISCRETIONARY TRUSTS AND SETTLOR'S BENEFICIAL INTEREST (SECTION 456.5-504 AND 456.5-505)

This act that no creditor or other person making a claim against a beneficiary shall be entitled to any information relating to the trust's assets or other trust records if distributions to the beneficiary are solely within the discretion of the trustee. Furthermore, this provision shall apply during the term of the trust, regardless of whether the beneficiary is also a potential remainder beneficiary of the trust.

Currently, a settlor's creditors may not reach the settlor's beneficial interest in an irrevocable trust with a spendthrift provision, regardless of any testamentary power of appointment retained by the settlor that is exercisable by the settlor in favor of certain appointees. This act modifies the provision to state that a settlor's creditors may not reach the settlor's beneficial interest in such a trust, regardless of any testamentary power of appointment that is exercisable by the settlor, by a will or other written instrument,

in favor of certain appointees or regardless of the settlor's power to veto distributions from the trust.

A settlor of the following trusts shall not be treated as the settlor of any other trust created pursuant to the exercise of a power of appointment if the settlor is the beneficiary of the trust created:

(1) An irrevocable inter vivos trust for the benefit of the settlor's spouse that qualifies for certain marital deductions from the federal gift tax;

(2) An irrevocable inter vivos trust for the benefit of the settlor's spouse, or the spouse and other beneficiaries, where the spouse is the beneficiary who exercises the power of appointment to create the additional trust; and

Student attendance in a virtual program shall only be included in any district pupil attendance calculation or charter school pupil attendance calculation for the calculation and distribution of state school aid using current year pupil attendance for full-time virtual program pupils.

The act changes the definition of a "full-time equivalent student" to mean a student who is enrolled in the instructional equivalent of 6 credits per regular term.

Pursuant to an education services plan and collaborative agreement, full-time equivalent students may be allowed to use a physical location of the resident school district for all or some portion of ongoing instructional activity.

A full-time virtual school program serving full-time equivalent students shall participate in the statewide assessment system, with the results to be assigned to the designated attendance center of the full-time virtual school program. Appeals of course denials shall be considered under a policy that is substantially similar to the typical process by which appeals would be considered for students seeking to enroll in courses offered by a school district or charter school.

The act requires the Department of Elementary and Secondary Education to adopt a policy for students enrolling in a full-time virtual program, with such policy containing information as stated in the act. Each host district shall implement such policy.

Virtual school programs shall monitor individual student success and engagement and provide regular progress reports for each student at least four times per school year to the school district or charter school. An education services plan may require an eligible student to have access to student facilities of the resident school district during regular school hours. The plan shall provide for reimbursement of the resident school district for such access.

The act creates a definition for "instructional activities" and states that a full-time virtual school shall develop a policy setting forth consequences for a student who fails to complete the required instructional activities. If a full-time virtual school disenrolls a student for failure to complete required instructional activities, the school shall immediately provide written notification to such student's school district of residence. Certain provisions in this act are additionally identical or substantially similar to provisions in SB 633 (2022), SB 668 (2022), SB 679 (2022), SB 695 (2022), SB 738 (2022), SB 780 (2022), SB 861 (2022), SB 887 (2022), SB 1065 (2022), HB 1454 (2022), HB 1483 (2022), HCS/HB 1595 (2022), HB 1646 (2022), HCS/HB 1678 (2022), HB 1859 (2022), HB 1911 (2022), HB 1976 (2022), HCS/HB 2082 (2022), HB 2113 (2022), HB 2531 (2022), HB 2577 (2022), and HB 2630 (2022).

AUDITS OF VOTER REGISTRATION RECORDS BY SECRETARY OF STATE (Section 28.960)

The Secretary of State (SOS) is authorized to audit the voter registration records of any local election authority (LEA). Each such audit shall, at least quarterly, determine whether the LEA has performed certain voter registration list maintenance activities that are required by law. If, after completing the audit, the SOS determines that the LEA has not performed such activities, then the SOS may withhold transaction funds associated with voter list maintenance from the LEA.

AMENDMENTS TO ELECTION LAWS, RULES, AND REGULATIONS (Section 115.004)

The act prohibits amendments or modifications of any kind to all election laws, rules, and regulations in the 26 weeks preceding any presidential election.

AIR-GAPPED ELECTION EQUIPMENT (Section 115.013)

The act requires all automatic tabulating equipment, electronic voting machines, and electronic voting systems to all be air-gapped, as that term is defined in the act.

ELECTION FUNDING (Section 115.022)

Neither the state of Missouri nor any political subdivision thereof that conducts elections shall receive or expend private moneys, excluding in-kind donations as provided in the act, for preparing, administering, or conducting an election, including registering voters. Notwithstanding this prohibition, the SOS is permitted to receive private funds in any election year in which the amount of funds appropriated for elections, as required by law, is less than the amount of funds that was appropriated for elections during the previous election year. Such funds received may not exceed the difference plus 10% of the amount appropriated in the previous year. Funds shall then be disbursed to counties based upon the

number of registered voters in each county. Funds may be withheld from any LEA in violation of these provisions.

QUALIFICATIONS FOR ELECTION OFFICIALS

(Sections 115.031 to 115.107)

The act stipulates that no employee of a board of election commissioners shall be required to reside and be a registered voter within the jurisdiction of the LEA unless directed by the board. (Section 115.045) The act also stipulates that no deputy county clerk shall be required to reside and be a registered voter within the jurisdiction of the county clerk unless directed by the clerk. (Section 115.051)

The act permits the committee of each major political party within the jurisdiction of a particular LEA to provide the LEA with a list of candidates for the position of election judge. If the committee fails to submit a number of candidates equal to the number of positions available for election judge, then the LEA may fill the positions as otherwise required by law. Furthermore, if the LEA determines that a candidate submitted by the committee does not meet the qualifications for election judge, the LEA shall notify the committee and permit it to submit a new name prior to filling the position. (Section 115.081) This provision is identical to a provision in HB 709 (2021).

Current law permits an LEA to appoint election judges who are registered voters of another LEA's jurisdiction only after receiving the written consent of the other LEA. This act repeals that requirement. (Section 115.085) This provision is identical to a provision in HB 709 (2021) and substantially similar to a provision in HB 1065 (2021).

VOTER REGISTRATION

(Sections 115.135 to 115.205)

The act modifies various provisions relating to voter registration.

CHANGE OF ADDRESS FOR ALREADY REGISTERED VOTERS

The act permits a registered voter who has changed his or her residence within the state and has not been removed from the list of registered voters to file a change of address in person at the office of the LEA on election day. In order to change an address in person on election day, a registered voter shall provide a form of personal photo identification required to vote. The act makes corresponding modifications to law to allow for this change of address procedure. (Sections 115.135 and 115.165)

DECLARING A POLITICAL PARTY AFFILIATION

Under current law, voters are not required to declare a political party affiliation when registering to vote. This amendment requires any person registering to vote to declare a political party affiliation, beginning January 1, 2023. The options for political party affiliation shall include all established political parties. Voters are entitled to choose to be unaffiliated with any political party as well. If a voter does not designate any political party affiliation, then the election authority shall designate the voter as unaffiliated. A voter can change his or her political party affiliation at any time by notifying his or her election authority in the manner described in the amendment.

Prior to January 1, 2025, election authorities are required to notify registered voters of the political party affiliation opportunities of this amendment using all current election mailings that would otherwise be mailed to registered voters.

ELECTRONIC VOTER REGISTRATION

HANDLER: Crawford

This act requires the use of electronic voter registration application forms by the Director of Revenue. The Director must additionally provide for the secure electronic transfer of voter registration information to election authorities in the manner described in the act. All voter registration information sent electronically to the election authorities shall be printed out by the election authorities and retained for a period of at least two years. (Section 115.160)

The act requires LEAs to accept and process voter registration records, including electronic images of applicant signatures, transmitted electronically by the Division of Motor Vehicle and Driver Licensing of the Department of Revenue. (Section 115.960)

UPDATING VOTER HISTORY ON VOTER REGISTRATION SYSTEM

The act requires LEAs to forward voter history to the Missouri voter registration system not later than 3 months after each election. Current law gives LEAs up to 6 months. (Section 115.157)

PUBLIC AVAILABILITY OF VOTER REGISTRATION INFORMATION

The act modifies the voter registration information that a LEA or the SOS may furnish to any member of the public. Specifically, in furnishing electronic media printouts containing voter registration information a LEA or the SOS may only include unique voter identification numbers, voters' names, years of birth, addresses, and townships or wards, and precincts. Furthermore, any information so furnished shall not be used for commercial purposes. (Section 115.157)

SOLICITATION OF VOTER REGISTRATIONS

The act prohibits any person from being paid or otherwise compensated for soliciting voter registration applications, provided that a governmental entity or person paid or compensated by a governmental entity may solicit such applications. Any person who solicits more than 10 voter registration applications is required to register with the SOS for every election cycle. (Section 115.205)

PAPER BALLOTS AND ELECTRONIC VOTING MACHINES

(Sections 115.225 and 115.237)

The act prohibits the use of touchscreen direct-recording, electronic vote-counting machines beginning January 1, 2024. Upon the removal of such a machine from an LEA's inventory because of mechanical malfunction, wear and tear, or any other reason, the machine shall not be replaced and no additional direct-recording electronic vote-counting machine shall be added to the LEA's inventory. Equipment that is designed for accessibility for voting shall provide a paper ballot audit trail.

The act includes provisions relating to cyber security in election authority offices. Each election authority that controls its own information technology department is required to annually have a cybersecurity review of their office by either the SOS or an entity that specializes in cybersecurity reviews. Each political subdivision that controls the information technology department for an election authority shall annually allow a cyber security review of the information technology department by the secretary of state or alternatively by an entity that specializes in cyber security reviews. The SOS is also required to annually have a cybersecurity review of their office by an entity that specializes in cybersecurity reviews. If an election authority fails to have a cyber security review in any calendar year, the SOS may publish a notice of noncompliance in a newspaper within the jurisdiction of the election authority or in electronic format. The SOS may also withhold funds from an election authority in violation of this section unless such funding is a federal mandate or part of a federal and state agreement. All audits required by this provision that are conducted by SOS must be solely paid for by state and federal funding.

SPONSOR: Simmons

HANDLER: Crawford

The SOS shall have authority to require cyber security testing, including penetration testing, of vendor machines, programs, and systems. Failure to participate in such testing shall result in a revocation of vendor certification. Upon notice from another jurisdiction of cyber security failures or certification withholds or revocation, the SOS shall have authority to revoke or withhold certification for vendors. The requirements of this section shall be subject to appropriation for the purpose of cyber security testing. (Section 115.225)

Beginning January 1, 2023, the official ballot shall be a paper ballot that is hand-marked by the voter or by the voter's designee, unless such voter desires to use a ballot marking device as prescribed by law. (Section 115.237)

ABSENTEE VOTING

(Sections 115.257 to 115.291)

DEFINITION OF ABSENTEE BALLOT

The act provides that an absentee ballot includes any ballot cast in the office of the LEA, by mail, or at another authorized location designated as a polling place by the LEA. (Section 115.275(1)).

ABSENTEE VOTING - REASONS FOR VOTING

The act expands the use of absentee voting to members of the Space Force as well as their spouses and dependents. (Section 115.275) The Uniformed Military and Overseas Voters Act is also amended to include members of the Space Force as well as their spouses and dependents. (Section 115.902)

The act also allows persons who are employed as a first responder, health care worker, or member of law enforcement to vote absentee. (Section 115.277.3(7))

ABSENTEE VOTING - GENERALLY

This act provides that any person may cast an absentee ballot in person at a place determined by the LEA by providing a form of personal photo identification required by law if it is for one of the reasons enumerated by law. (Section 115.277.1) A person may cast an absentee ballot not in person by having his or her ballot envelope notarized. (Section 115.277.2)

NO-EXCUSE PERIOD

The act provides that beginning on the second Tuesday prior to an election, an excuse shall not be required for voting absentee in person. This provision contains a non-severability provision connecting it with the voter identification provision. (Section 115.277.1)

VOTING ABSENTEE NOT IN-PERSON DUE TO INCAPACITY OR CONFINEMENT

For persons voting absentee not in person, if the reason for such person voting absentee is due to incapacity or confinement due to illness or physical disability, such person must expect to have such incapacity or confinement on election day. Furthermore, if the reason for voting absentee is due to being primarily responsible for the physical care of a person who is incapacitated or confined due to illness or disability, the person voting must live at the same address as the person that is being cared for. (Section 115.277.2(2))

ABSENTEE BALLOT APPLICATIONS

No individual, group, or party shall solicit a voter into obtaining an absentee ballot application.

SPONSOR: Simmons

HANDLER: Crawford

Furthermore, absentee ballot applications shall not have any information pre-filled prior to being provided to a voter. This provision does not prohibit any election authority from assisting an individual voter. (Section 115.279.2)

ABSENTEE BALLOTS - WHEN DEEMED CAST

The act stipulates that absentee ballots that are received by an LEA in person are deemed cast when received prior to election day and absentee ballots that are received through a common carrier are deemed cast when received prior to the closing of polls. Furthermore, absentee ballots received by the LEA through a common carrier such as the United States Postal Service are required to be received prior to the time fixed by law for the closing of polls on election day. The LEA shall hand mark or stamp each absentee envelope as it is received, indicating the date and time the absentee ballot was received. (Section 115.286)

WITNESS AND RETURN OF MASS ABSENTEE BALLOTS

Under current law, in charter counties and the cities of St. Louis and Kansas City, if the LEA receives ten or more applications for absentee ballots from the same address it may appoint a team to deliver and witness the voting and return of absentee ballots by voters residing at that address. This act expands this provision to all LEAs and furthermore requires, rather than permits, a team to be appointed to deliver and witness the voting and return of the ballots. (Section 115.287)

DROP BOXES PROHIBITED

The act prohibits the use of drop boxes for the delivery of absentee ballots. (Section 115.291.5)

MAIL-IN BALLOTS

(Section 115.302)

The act repeals current law authorizing mail-in ballots, which expired December 31, 2020, and expressly prohibits the use of mail-in ballots.

VOTER IDENTIFICATION

(Section 115.427)

The act modifies provisions governing forms of identification required to vote. Under current law, any person seeking to vote in a public election must provide a certain form of identification, provided that any person lacking such identification can vote without such a form of identification through the execution of a statement under the penalty of perjury averring, among other things, that the person is who they say they are. This act repeals the provision allowing persons to vote through execution of the statement under penalty of perjury. The act additionally creates new provisions governing the use of provisional ballots in the case of persons who do not possess the proper form of identification in order to vote.

The act repeals the following:

- A provision requiring the SOS to provide advance notice of the identification requirements for voting in elections by means calculated to inform the public generally, including advertisements in print, TV, and radio. Instead the SOS is required to post such a notice on the official SOS website;
- A provision requiring all costs associated with the implementation of the voter identification law to be reimbursed from the general revenue by an appropriation for that purpose; and
- A provision preventing the voter identification provisions from being enforced unless a sufficient appropriation of state funds is made to implement the law.

The act repeals the presidential preference primary election.

SOS SYSTEM - ACCEPTANCE OF VOTER REGISTRATION APPLICATIONS ELECTRONICALLY

(Section 115.960.2)

Current law requires the SOS to maintain a system for accepting voter registration applications electronically. This act makes maintenance of such a system permissive.

SS/SCS/HCS/HBs 2116, 2097, 1690, & 2221 - This act establishes the "No Patient Left Alone Act". Under this act, a health care facility, defined as a hospital, hospice, or long-term care facility, shall allow a resident, patient, or guardian of such, to permit in-person contact with a compassionate care visitor during visiting hours. A compassionate care visitor may be the patient's or resident's friend, family member, or other person requested by the patient or resident. The compassionate care visitation is a visit necessary to meet the physical or mental needs of the patient or resident, including end-of-life care, assistance with hearing and speaking, emotional support, assistance with eating or drinking, or social support.

A health care facility shall allow a resident to permit at least 2 compassionate care visitors simultaneously to have in-person contact with the resident during visitation hours. Visitation hours shall include evenings, weekends, and holidays, and shall be no less than 6 hours daily. 24-hour visitation may be allowed when reasonably appropriate. Visitors may leave and return during visitor hours. Visitors may be restricted within the facility to the patient or resident's room or common areas and may be restricted entirely for reasons specified in the act.

By January 1, 2023, the Department of Health and Senior Services shall develop informational materials for patients, residents, and their legal guardians regarding the provisions of this act. Health care facilities shall make these informational materials accessible upon admission or registration and on the primary website of the facility.

A compassionate care visitor may report any violation of the Compassionate Care Visitation Act by a health care facility to the Department of Health and Senior Services, as specified in the act. The Department shall investigate any such complaint within thirty-six hours of receipt.

No health care facility shall be held liable for damages in an action involving a liability claim against the facility arising from compliance with the provisions of this act; provided no recklessness or willful misconduct on the part of the facility, employees, or contractors has occurred.

The provisions of this act shall not be terminated, suspended, or waived except by a declaration by the Governor of a state of emergency, in which case the provisions of the "Essential Caregiver Program Act" shall apply.

Additionally, this act establishes the "Essential Caregiver Program Act". During a governor-declared state of emergency, a hospital, long-term care facility, or facility operated, licensed, or certified by the Department of Mental Health shall allow a resident of such facility, or the resident's guardian or legal representative, to designate an essential caregiver for in-person contact with the resident in accordance with the standards and guidelines developed under this act. An "essential caregiver" is defined as a family member, friend, guardian, or other individual selected by a resident, or the guardian or legal representative of the resident. Essential caregivers shall be considered a part of the patient's care team, along with the

resident's health care providers and facility staff.

The Department of Health and Senior Services and the Department of Mental Health shall develop the program's standards and guidelines, including: (1) allowing the resident to select at least two caregivers, although the facility may limit in-person contact to one at a time; (2) establishing an in-person contact schedule allowing for at least four hours each day; and (3) establishing procedures enabling physical contact between the caregiver and resident. The facility may require the caregiver to follow infection control and safety measures; provided that such measures are no more stringent than required for facility employees. Caregiver in-person contact may be restricted or revoked for caregivers who do not follow such measures.

A facility may request a suspension of in-person contact for a period not to extend seven days. The suspension may be extended, but not for more than fourteen consecutive days in a twelve-month period or more than forty-five days in a twelve-month period. The Department shall suspend in-person contact by essential caregivers under this act if it determines that doing so is required under federal law, including a determination that federal law requires a suspension of in-person contact by members of the resident's care team.

The provisions of this act shall not apply to those residents whose condition necessitates limited visitation for reasons unrelated to the stated reason for the declared state of emergency.

A facility, its employees, and its contractors shall be immune from civil liability for (1) an injury or harm caused by or resulting from exposure of a contagious disease or harmful agent or (2) acts or omissions by essential caregivers who are present in the facility, as a result of the implementation of the caregiver program. This immunity shall not apply to any act or omission of the facility, its employees, or its contractors that constitutes recklessness or willful misconduct.

These provisions are substantially similar to provisions in SCS/SB 671 (2022), HCS#2/SB 710 (2022), and SCS/HB 2331 (2022).

Beginning January 1, 2024, this act changes the name of a person licensed as a land surveyor-in-training to a land surveyor intern. A person may apply to the Missouri Board for Architects, Professional Engineers, Professional Land Surveyors, and Professional Landscape Architects for enrollment as a land surveyor-intern if such person is a high school graduate or possesses a certificate of high school equivalence and has passed any examination required by the Board. Beginning January 1, 2024, this act institutes new education, experience, and examination requirements for licensure as a land surveyor, as described in the act.

This act authorizes the Missouri Dental Board, in collaboration with the Department of Health and Senior Services and the Office of Dental Health within the Department of Health and Senior Services, to approve pilot projects designed to examine new methods of extending care to under-served populations. Such projects may employ techniques or approaches to care that may necessitate a waiver of statute or regulation and shall follow the requirements of the act regarding scope, content, and reports.

The provisions of this act shall expire on August 28, 2026, and a report of the pilot projects approved by the Board shall be submitted to the General Assembly no later than December 1, 2025.

Any person in a clinical fellowship shall hold a provisional license to practice speech-language pathology or audiology and shall be issued a license if the person meets requirements set forth in the act.

This act modifies provisions relating to license reciprocity. Currently, those applicants who are licensed in another country or hold a certificate of competence issued by the American Speech-Language-Hearing Association may receive a license without an examination. This act repeals this provision and implements a provision permitting any person who, for at least one year, has held a valid, current license issued by another state, a branch or unit of the military, a U.S. territory, or the District of Columbia, to apply for an equivalent Missouri license through the Board, subject to procedures and limitations as provided in the act.

This act also adopts the Audiology and Speech-Language Pathology Interstate Compact. The purpose of the compact is to increase access to audiology and speech-language pathology services by providing for the mutual recognition of other member state licenses. The compact sets forth requirements that must be met in order for a state to join the compact. Each member state shall require an applicant to obtain or retain a license in the home state and meet the home state's qualifications for licensure or renewal of licensure as well as all other applicable state laws.

The compact creates a joint public agency known as the Audiology and Speech-Language Pathology Compact Commission. The Commission has powers and duties as listed in the compact and shall enforce the provisions and rules of the compact. The Commission shall provide for the development, maintenance, and utilization of a coordinated database and reporting system containing licensure, adverse action, and investigative information on all licensed individuals in member states.

The compact shall come into effect on the date on which the compact is enacted into law in the 10th member state. Any member state may withdraw from the compact by enacting a statute repealing the

The act specifies that the Department of Revenue shall establish by rule a process for the voluntary suspension of motor vehicle registration for vehicles which are inoperable or being stored and not in operation. The owner or nonresident shall not further operate the vehicle until notifying the Department that the vehicle will be in use, and the Department shall reinstate the registration upon receipt of proof of financial responsibility. Under the act, a second or subsequent offense may be punished by up to 15 days in jail and shall be punished by a fine not less than \$200 but not to exceed \$500. (Section 303.025.3). Fines owed to the state for violations of the Motor Vehicle Financial Responsibility Law may be eligible for payment in installments. TRAVEL INSURANCE (Section 375.159)

The act specifies that the act shall not apply to cancellation fee waivers or travel assistance services, as defined in the act. Under the act, the Director of the Department of Commerce and Insurance may issue a limited lines travel insurance producer license to a person or business entity that has filed an application with the Director. A limited lines producer may sell, solicit, or negotiate travel insurance through a licensed insurer. (Section 375.159.2). The existing grounds for license suspension or revocation by the Director shall apply to limited lines travel insurance producers and travel retailers, as defined in the act. (Section 375.159.3(2)(b)). The act specifies that certain information travel retailers are currently required to provide to customers shall have been approved by the travel insurer. (Section 375.159.3(3)).

Persons licensed to produce major lines of insurance may produce travel insurance as well. A property and casualty insurance producer is not required to be appointed by an insurer in order to produce travel insurance. (Section 375.159.3(8)).

Under the act, travel insurance will be subject to taxation of premiums as provided by law, with certain disclosures to be made as specified in the act. (Section 375.159.4).

Travel protection plans, as defined in the act, may be offered if the protection plan makes certain disclosures and provides information and materials described in the act. (Section 375.159.5).

Except as otherwise provided in the act, persons offering travel insurance to residents of this state shall be subject to the Unfair Trade Practices Act. If there is any conflict between the act and the other insurance laws of the state regarding travel insurance, the provisions of the act shall control. (Section 375.159.6(1)). It shall be an unfair trade practice to offer or sell a policy of travel insurance that could never result in payment to the insured. (Section 375.159.6(2)).

The act requires documents provided to consumers prior to purchasing travel insurance to be accurate, and requires disclosure of and an opportunity to learn more about preexisting condition exclusions. The act specifies that certain documents required by law shall be provided to the purchaser as soon as practicable following the purchase of a travel protection plan, and provides for minimum periods in which policies can be cancelled for a full refund. (Section 375.159.6(3)(a)-(c)). The act requires disclosure of whether the travel insurance is primary or secondary coverage, and specifies that marketing the policies directly to consumers through an aggregator site, as defined in the act, shall not be an unfair trade practice if an accurate summary of the coverage is provided on the web page and the consumer has access to the full policy through electronic means. (Section 375.159.6(3)(d)-(e)).

The act prohibits the use of selling travel insurance by means of a negative option or "opt-out" that would require the consumer to take action to decline coverage, such as unchecking a box on an electronic form, when purchasing a trip. (Section 375.159.6(4)). It shall be an unfair trade practice to market blanket travel insurance coverage, as defined in the act, as free. (Section 375.159.6(5)). Where a consumer's destination jurisdiction requires travel insurance, it shall not be an unfair trade practice to require purchase of coverage through the travel retailer, or agreement to obtain and provide proof of coverage from another source, prior to departure. (Section 375.159.6(6)).

No person shall represent himself or herself as a travel administrator, as defined in the act, for issuance of travel insurance unless the person holds one of the types of license described in the act. These provisions are identical to SB 1116 (2022), provisions in SS/SB 742 (2022), and provisions in HCS/SS/SCS/SB 783 (2022), and substantially similar to HB 2566 (2022).

VALUATION OF INSURANCE POLICIES AND CONTRACTS (Section 376.380)

Current law requires insurers providing life insurance, accident and health policies, deposit-type contracts, or annuity or pure endowment contracts, to hold reserves in an amount determined under the National Association of Insurance Commissioners' valuation manual.

This act repeals an exception specifying that insurers licensed and doing business in Missouri which have less than \$300 million of ordinary life insurance premium may instead utilize a different method specified by law to determine the reserve amounts, provided the insurer meets certain conditions.

These provisions are identical to SB 1079 (2022), provisions in SS/SB 742 (2022), provisions in HCS/SS/SCS/SB 783 (2022), and HB 2145 (2022).

The act shall not affect the rights of these parties to withdraw this consent.

Under this act, the state EMS medical director shall serve as an ex officio member of the State Advisory Council on Emergency Medical Services. The Council shall consult with the Time-Critical Diagnosis Advisory Committee established under this act regarding time-critical diagnosis, defined as trauma care, stroke care, and STEMI care occurring either outside of a hospital or in a designated center.

The State EMS Medical Director's Advisory Committee shall review and make recommendations regarding all proposed community and regional time-critical diagnosis plans.

This act repeals the requirement under current law that hospitals disclose data elements under the Missouri Brain and Spinal Cord Injury Registry to the Department of Health and Senior Services' uniform data collection system on all ambulance runs and injured patients.

The Department shall cooperate with hospitals to provide public and professional information related to emergency medical services systems. treatment standards. Currently, the Department makes recommendations for treatment standards, establishes protocols for transport of patients, and approves the development of regional or community-based plans for transporting STEMI or stroke patients. This act includes trauma patients.

Currently, the Department shall conduct a site review of a hospital to determine the applicable level of trauma center, STEMI, or stroke center criteria. Under this act, the site review may occur onsite or by any reasonable means of communication or combination thereof. In developing trauma, STEMI, or stroke center designation criteria, the Department shall use, as practicable, peer-reviewed and evidence-based clinical research and guidelines.

Currently, the Department shall conduct an onsite review of every trauma, STEMI, or stroke center every 5 years. Under this act, a site review shall be conducted every 3 years. The Department may deny, place on probation, suspend, or revoke a center's designation if it has determined there has been a substantial failure to comply with certain regulations. Centers that are placed on probationary status shall show compliance with these regulations within 12 months, unless otherwise provided by a settlement agreement with a maximum duration of 18 months.

This act modifies provisions governing alternative trauma, stroke, and STEMI center designations by repealing current law establishing various designation levels and requiring the Department to designate hospitals seeking alternative designation in manner that corresponds to a similar national designation. A hospital receiving a center designation under this provision may have such designation removed upon the request of the hospital or upon a determination by the Department that the organization certifying or verifying the alternative designation has suspended or revoked its designation. This act requires centers receiving alternative designations under this provision to submit to the Department proof of certification or verification and to participate in local and regional emergency services systems for training, sharing educational resources, and collaboration on improving patient outcomes.

This act modifies data submission requirements for designated centers to require submission to either a state or national registry. Additionally, this act repeals requirements that the data collections system meet certain standards.

This act repeals provisions of current law granting the Board of Registration for the Healing Arts the sole authority to establish education requirements for physicians practicing in an emergency department in a trauma, STEMI, or stroke center. Instead, the Department shall not have authority to establish additional education requirements for emergency medicine board-certified or board-eligible physicians, either through the American Board of Emergency Medicine or American Osteopathic Board of Emergency Medicine, who are practicing in the emergency department of a designated center. The Department shall deem the education requirements of such entities to meet the standards for designation. Education requirements for other physicians, nurses, and other providers who provide care at the designated center shall equal, but not exceed, those established by national designating or verifying bodies of trauma, stroke, or STEMI centers.

Under this act, the Department may only establish appropriate fees to offset the costs of center surveys.

Finally, this act establishes the "Time-Critical Diagnosis Advisory Committee" within the Department for the purpose of advising and making recommendations to the Department on improving public and professional education related to time-critical diagnosis; cooperative research endeavors; developing standards and policies relating to time-critical diagnosis; and reviewing and recommending community and regional time-critical diagnosis plans. Under this act, processed recycled asphalt shingles, as defined in the act, may be used for fill, reclamation, and other beneficial purposes without any permits relating to solid waste management or any permits relating to the Missouri Clean Water Law if the shingles are inspected for toxic and hazardous substances, provided that such shingles shall not be used for fill, reclamation, or other beneficial purposes within 500 feet of any lake, river, sink hole, perennial stream, or ephemeral stream, and shall not be used for such purposes below surface level and closer than 50 feet above the water table.

The act shall not be construed to authorize the abandonment, accumulation, placement, or storage of recycled asphalt shingles or processed asphalt shingles on any property without the consent of the property owner.

These provisions are similar HCS/HB 2447 (2022) and similar to SB 910 (2022).

The act repeals the Commission's authority to retain, modify, or repeal rules relating to:

1. Thresholds for determining whether a hazardous waste generator is a large quantity generator, small quantity generator, or conditionally exempt small quantity generator;
2. Rules requiring hazardous waste generators to display hazard labels on containers and tanks during the time hazardous waste is stored on-site;
3. The exclusion for hazardous secondary materials used to make zinc fertilizers; and
4. The exclusions for hazardous secondary materials that are burned for fuel or that are recycled.

The Commission shall promulgate rules for the reporting of hazardous waste activities to the

Department of Natural Resources, effective beginning with the reporting period July 1, 2017-June 30, 2018, that allow for the submittal of reporting data in any format on an annual basis by large quantity generators and treatment storage and disposal facilities.

The act also repeals a requirement that the Department identify certain rules relating to hazardous waste in the Missouri Code of State Regulations that are inconsistent with certain rules promulgated by the Commission.

On December 31, 2017, any rule relating to hazardous waste, resource recovery, or used oil contained in the Missouri Code of State Regulations that remains inconsistent with certain rules promulgated by the Commission shall be null and void to the extent that such rule is inconsistent, and the least stringent rule shall control. Any rule that applies mandatory obligations outside of the requirements of certain federal regulations promulgated pursuant to Subtitle C of the Resource Conservation and Recovery Act, as amended, shall be null and void.

Except for provisions of law relating to voluntary remediation of contaminated real property, the Commission shall not promulgate rules that are stricter than, apply prior to, or apply mandatory obligations outside of the requirements of certain federal regulations promulgated pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, for provisions of law relating to abandoned or uncontrolled sites. The Commission shall file with the Missouri Secretary of State any amendments necessary to ensure that rules are not inconsistent with the provisions of the act. Any rule that is inconsistent with provisions of the act or applies mandatory obligations outside of the federal regulations shall be null and void.

Except for provisions of law relating to voluntary remediation of contaminated real property, the Director of the Department of Natural Resources shall not promulgate rules that are stricter than, apply prior to, or apply mandatory obligations outside of the requirements of certain federal regulations promulgated pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, for provisions of law relating to the cleanup of hazardous substances. The Director shall file with the Missouri Secretary of State any amendments necessary to ensure that rules are not inconsistent with the provisions of the act. Any rule that is inconsistent with provisions of the act or applies mandatory obligations outside of the federal regulations shall be null and void.

These provisions are identical to provisions in SCS/SB 918 (2022).

PENALTIES ISSUED BY DNR (Section 640.095)

In instances where the Department of Natural Resources has authority to issue penalties and determines that a penalty should be levied, the Department is required to provide information as set forth in the act to the alleged violator in order for the alleged violator to understand the basis for the penalty. Any statement provided by the Department in compliance with this provision shall be treated as confidential information and shall not be disclosed to any party except the alleged violator.
